Proposed Development at Goa

Quotation for Structural Consultancy Services

Proposed Development at Goa

Dear Sir, we thank you for considering Struct Bombay Consultants for the structural consultancy of your proposed development at Goa. Please find below our scope of work, deliverables and commercial proposal.

Scope of Work & Deliverables

#	Stage	Scope of Work	Deliverables
1	Concept Stage	Study of plans against site survey and client brief; review geotechnical / topographical reports; site inspection during soil investigation; alternative structural solutions.	Design Basis Report, Scheme Drawings
2	Preliminary Stage	Finalise construction method and structural programme; outline structural drawings and typical calculations; authority submission; coordination with architect and consultants.	Outline Structural Drawings, Authority Submission Package
3	Schematic Design	Structural design based on final computer analysis; preparation of tender drawings.	Tender Drawings
4	Detailed Design	Balance working drawings; issue of construction drawings (VFC); finalise construction methodology with contractors.	Working Drawings, VFC Drawings
5	Construction Stage	Site coordination to interpret drawings; slab reinforcement checks prior to casting; resolution of site difficulties; final inspection.	Site Visit Reports, Stability Certificate
6	Special Stages	High-Rise Committee / wind tunnel submissions and peer review support, if applicable to the project.	Submission Packages, Clarification Reports

Note: All structural drawings and models will be prepared in BIM using the Autodesk suite of products.

Professional Fees

INR 15 / sq. ft.
of built-up area, exclusive of applicable taxes (GST extra)
